

COPYBOX 9 PRO

Introduction - Features - Specifications

INTRODUCTION

The CopyBox 9 "Pro" is a stand-alone CD/DVD duplicator which offers several special duplication functions. The unit has one CD/DVD reader, nine CD/DVD writers and also includes two USB data ports on the front of the controller. The CopyBox 9 Pro is capable of duplicating nine discs at once at a maximum 24x speed (CD max 48x speed). The CopyBox LG CD/DVD writers are also able to duplicate M-DISC recordable DVD's. These special archiving DVD's preserve your valuable data up to 1000 years!

Operating the CopyBox 9 Pro is quite simple; all functions are selected using the LCD display and control buttons on the front of the unit. The system operates stand-alone and does not require any software or PC connection. This makes the CopyBox suitable for all users.

An internal hard drive can be fitted as an optional extra. The internal hard drive is used to store CD/DVD images. Once copied to the hard drive, master discs are no longer required for duplication. The main advantage when duplicating from the internal hard drive is the maximum stability and reliability; read errors are eliminated.

Using the two USB ports in the front of the CopyBox 9 Pro offers the following special duplication functions:

Flash/USB to Disc

Data is duplicated directly from USB stick (or memory cards using an optional adapter) to CD/DVD disc. This function allows multiple source USB sticks to be copied to one multi-session disc (append copy).

Flash/USB to Flash/USB

Data is duplicated directly from USB stick (or memory cards using an optional adapter) to another USB stick. This function allows multiple source USB sticks to be copied to one USB stick (append copy).

Disc to Flash/USB

Data is duplicated directly from CD/DVD to USB stick (or external USB hard drive). This function allows multiple source CD/DVD discs to be copied to one USB stick (append copy).

FEATURES

- Stand-alone duplicator for CD and DVD recordable discs.
- Two USB data ports for special duplication features.
- One high quality LG CD/DVD reader, nine CD/DVD writers.
