

COPYBOX HDD-11 HARD DRIVE DUPLICATOR/ERASER

[Introduction](#) - [Features](#) - [Specifications](#)

INTRODUCTION

The CopyBox HDD-11 is a professional stand-alone flatbed duplicator for both SATA Hard Drives and Solid State drives (HDD and SSD). The system can simultaneously duplicate eleven 2.5" or 3.5" drives from one master drive at a maximum of 2 GB per minute, per port. All common file systems are supported by the CopyBox HDD-11; Microsoft (NTFS, FAT16, FAT32), Mac (HFS+) en Linux (EXT2, EXT3). Even Hard Drives with unsupported file systems can be cloned using the "Sector to Sector" copy mode.

Both Source and Target Hard Drives are easily connected to the SATA ports on top and in front of the CopyBox HDD-11. These SATA ports are "hot swappable" which makes the system very suitable for duplicating large numbers of drives. Besides duplication the CopyBox HDD-11 can also be used for fast and secure Hard Drive erasure. The systems offers "Secure Erase" and "Overwrite" functions which allows multiple Hard Drives to be erased simultaneously. The Overwrite function supports the DoD 5220.22-M 7-pass standard.

Operating the CopyBox HDD-11 is quite simple; all functions are selected using the LCD display and control buttons on the top of the unit. The systems speed, simple operation and flexible use make the CopyBox HDD-11 very suitable for duplication and erasure of all SATA drives.

FEATURES

- Hard drive duplication and erasure without software or PC connection.
- Copy or erase multiple hard drives simultaneously.
- Stand-alone operation, easy to follow menu.
- One master data port and eleven target data ports.
- Supports Microsoft, Mac & Linux file systems.
- Maximum copy speed 100 MB/s, per port.
- Compatible with 2.5" and 3.5" SATA Hard Drives and Solid State Drives (SSD).
- Copy, Compare, Prescan, Overwrite, Secure Erase functions.
- Secure Hard Drive erasure including DoD 5220.22-M 7-pass support.
- Easy operation through a LCD display and control buttons.

SPECIFICATIONS

- **Included**
 - CopyBox HDD-11
 - Power Cable
 - User Manual
- **Writing Speeds**
 - Maximum 33 MB/s per port (depending on the media used)
- **Writing Modes**
 - Fast Copy
 - Sector to Sector Copy
 - Percentage Copy
- **Connection**
 - Stand-alone
- **Dimensions (LxWxH)**
 - Closed: 27x74x18 cm
 - Opened: 40x74x16 cm
- **Weight**
 - 9,6 kg
- **Power Supply**
 - Dual Power Supply 100-120 VAC or 220-240 VAC, 50/60Hz, 300 Watt, Switchable
- **Operating Conditions**
 - In use : 5°C to 35°C (RH: 15% to 80% non condensing)
 - Not in use : -20°C to 60°C (RH: 15% tot 90% non condensing)
- **Data Ports**
 - 1x Source (SATA)
 - 11x Target (SATA)
- **Production Capacity**
 - 11 x 120 GB per hour
- **Supported Formats**
 - Microsoft (NTFS, FAT16, FAT32), Mac (HFS+) en Linux (EXT2, EXT3)
- **Supported Media**
 - 2.5" and 3.5" SATA Hard Drives and Solid State Drives (SSD)
- **Warranty**
 - Standard **1 year carry-in warranty**

Prices:

- CopyBox HDD-11
