

COPYBOX 7 STANDARD

[Introduction](#) - [Features](#) - [Specifications](#)

INTRODUCTION

The CopyBox 7 "Standard" is a stand-alone DVD duplicator, suitable for users who regularly need to duplicate recordable CD's or DVD's. The system has one CD/DVD reader and seven CD/DVD writers. The CopyBox "M-DISC Ready" LG writers are able to duplicate M-DISC recordable DVD's. These special archiving DVD's preserve your valuable data up to 1000 years.

An internal hard drive can be fitted as an optional extra. The **internal hard drive** can store CD/DVD images. Once you have copied to the hard drive, master discs are no longer required for duplication. The advantage when duplicating from the internal hard drive is maximum stability and reliability; read errors are eliminated.

The CopyBox 7 can make seven DVD duplicates at once at a maximum 24x speed. (CD maximum 48x speed) Since the unit operates completely stand-alone and does not require any software or PC connection, the CopyBox 7 Standard is ideal for fast and easy duplication of any common recordable CD or DVD. The fast writers can duplicate a DVD in 5:15 minutes (CD 2:40). This results in a production capacity of 72,8 DVD's or 131,9 CD's per hour.

Operating the CopyBox 7 is simple; all functions are selected using the LCD display and control buttons on the front of the unit. The CopyBox is suitable for all types of user.
